

Welcome to Soundiverse!

Soundiverse is a fun 10-week brain training adventure that will help your ears hear better in noisy places! You'll be based in a cozy café, but the real work happens underground. In a series of caves you will dig for recipes and special ingredients to bake your magical Matchimos, cute cafe creatures with crazy names.

Ready to start your daily training?
Tap the **Dig** button to go to the map and then tap the dig site to enter the first cave.

Image 2: Button with shovel and the word Dig

Inside the cave you'll see three blocks. Each one will shake and make a sound. Two of the sounds will make the same sound, one will be different:

E.g. B1: bu-pi, B2: bu-pi, B3: pa-tu

Your job is to tap the block that sounds *different*. (B3)

You will hear people talking all around you. **It's very important to ignore the talking in the background and concentrate on the sounds coming from the blocks.**

Image 3: Dangles the Spider hovering over the three blocks

If you pick the right block - the one that plays the sound that is different - you unlock rewards, including recipes and ingredients, to bake your *Matchimos*.

Dangles the Spider will swing down to collect and store the ingredients for you. If you aren't sure which sound was different, don't worry - just press the **Question Mark** button to play the sounds again.

Image 4: Dangles the Spider receiving a reward in the cave

Each game has 30 rows of blocks. The deeper you dig, the trickier it becomes to hear the different sounds, but the richer the rewards, including rare ingredients that allow you to bake 'shiny' Matchimos!

There are four caves, each with new and fun recipes and ingredients.

Image 5: Dangles sitting above two layers of blocks with a lamp on the right hand side and a spindle on the left

After each training game, you can play a mini game to collect BUZZ.

You will need to help Dangles build a web to catch the mosquitoes. The mosquitoes then convert to BUZZ, which is used to power the oven, so the more mosquitoes you catch, the more Matchimos you can bake.

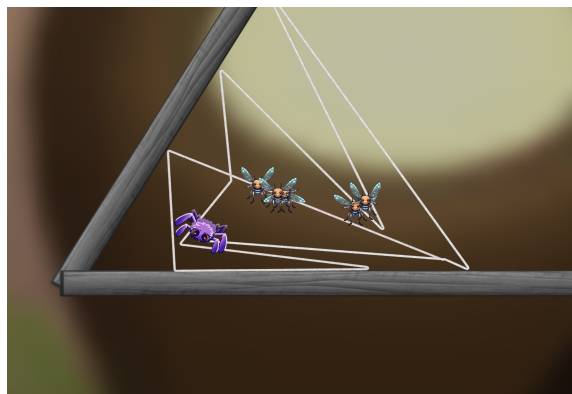

Image 6: Dangles sitting on the web after catching mosquitoes

With your rewards and your BUZZ, it's time to press the **Bake** button to enter the kitchen. You'll see a cookbook, an oven, and all the recipes and ingredients you've collected from your training work. When you have the right ingredients, you can tap the dial on the oven to bake a Matchimo.

Image 7: Green oven and cookbook with silhouettes of creatures that have recipes attached.

Once baked your *Matchimos* will appear in the café. If you bake the shiny version you can tap the Matchimo to revert back to the original colours.

Image 8: Matchimo 'Barkrex' shiny version coloured purple and normal version coloured brown

When you start *Soundiverse* you will see a magical land divided into four seasons - Summer, Autumn, Winter, and Spring. In the beginning only the summer café is open. By completing your daily games, you can open all the cafés.

And don't forget to check the trapdoor in the middle. The trapdoor leads to Dangles' cupboard, where you can use your BUZZ to buy special accessories to dress up Dangles.

Image 10: Dangles Accessories Cupboard

Before you start your adventure, let's make sure the sound is just right - not too loud and not too quiet. Set your device volume to about a third of the way down from maximum.

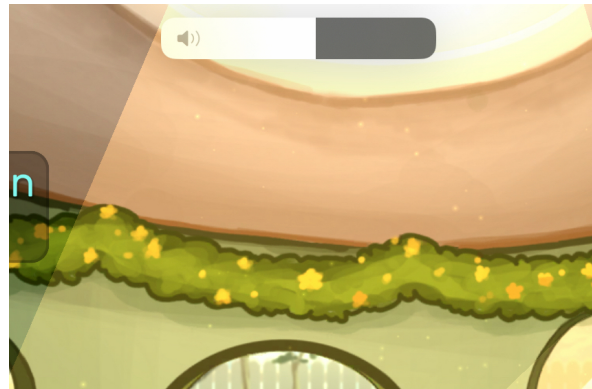

Image 11: Sound slider on device set to two thirds volume level

You will then play a game without any background noise to set your sound level. This is called *calibration*.

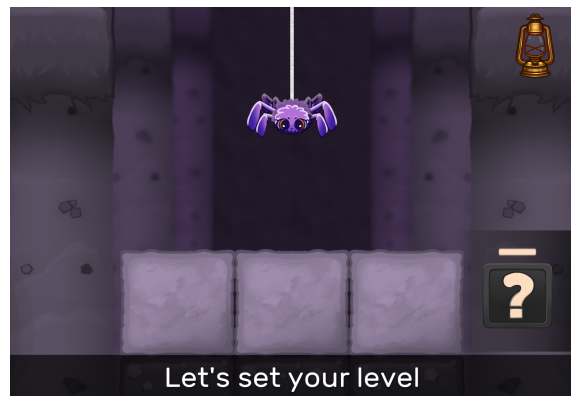

Image 12: Dangles hovering over purple blocks ready to calibrate the volume

If the volume on your device changes between training sessions, a message will pop up to help you fix it. You can also press the **Recalibrate** button in the **Menu** if you ever need to reset it.

Image 13: Pop up message prompting user to increase volume

**Your goal is to play two games a day,
five days a week, until you've completed
100 games.**

**Listen carefully, pick the sound that is
different and win rewards. The more
rewards you collect the more Matchimos
you can bake!**

You've got this!
